SUPPLY TERMS AND CONDITIONS

- Guarantee- Switches – Myrius, Myline and Lyncus 10 Years from Date of Installation
- Guarantee- Switch Accessories – 2 Years Replacement Guarantee from Date of Installation
- Guarantee- Dx3 MCB,DBs and RCCBs- 5 Years Replacement Guarantee from Date of Installation
- Supply will through our Authorised Points of Sale whose list is given herewith and are available in all District Head Quarters of AP
- Guarantee App;liable only if the material is lifted through of Authorised Points of sale in Andhra Pradesh whose list is furnished along with documents herewith
- Special Institutional Discount is taken from our management and is as follows
Myrius Range@66%, Myline@67%, Lyncus@60%,and Metal Flsh Boxes@63%, Dx3 MCB, RCCB and Isolator@60% , Ekinox3 Distribution Boards @60% on MRP as per our Price List of March 2020
- GST @ 18% is applicable on all the above products and is extra on net discounted price.
- Price Validity of the Offer is Limited upto the supplies done through August 2020

Thanking you

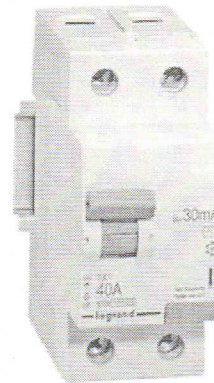

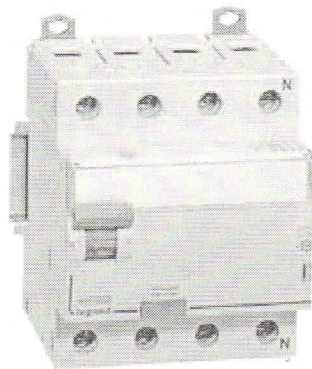

Yours sincerely

Legrand DX3 MCB/Isolators Technical Specifications

- The MCBs are of completely moulded design suitable for operation at 240/415 Volts 50 Hz, single phase/3-phase and neutral system. MCBs shall be quick make and break type conforming to IEC/IS 60898-1. And marked ISI
- MCBs shall have IP20 protection i.e finger proof terminals, positive contact indication, suitable for Isolation, conform to Energy limiting class 3.
- MCB's are quick make and break non-welding self wiping silver alloy contacts rated for 10 kA
- **Integrated Label Holder for Circuit Identification**
- **Air Channels on the side of MCB for effective cooling of mechanism thus preventing Nuisance tripping.**
- Breakers must conform to IEC 60898 with facility for locking using padlock with hasp in OFF position.
- **The breaking capacity is 10 KA at 415 VAC. MCBs shall be DIN rail mounted. The MCB shall be Current Limiting type (Class-3)**

Legrand DX3 RCCB

- Residual current circuit breaker shall comply with IS 12640-1 2008 with ISI
- **Integrated Label Holder for Circuit Identification**
- **Operating temperature range is -25degree C to + 70degree C making it suitable in all Applications**
- 25A, 40A, 63 Amps Rating in 2 Pole/4 Pole configarion with 30ma Sensitivity for Human Protection
- **Degree of protection: IP 2X to IEC 60529 or EN 60529,**
- **Short Circuit Witstand Capacity of 10 KA for 1 Sec.**

Kind Attn: Mr.S. Balakrishna
Managing Director

Dear Sir

Sub: World Class range of Electrical and Digital Solutions for Your Esteemed projects.
Ref : Our Recent Visit

Thank You very much for the Courtesy extended to the undersigned while he visited you along my Colleague Mr.Naveen Raja, We also are very pleased on the time given by you with which we could discuss on the wide range of Solutions to your Educational Institutions under Nadu-Nedu Project Planned Renovations

As you know we are Quality Solution provider for Electrical and Digital Infrastructures and We are in a position to supply and service a whole range of products complimented by World Class Quality, Manufactured in India with World Class Technology and Expertise, Ergonomical pricing, Strong Supply channel and backed up by a Strong Pre & Post-Sales Service in Nuke and Corner of AP. We have our Authorised Stockists(Points of Sale) in all District Head Quarters and Authorised Dealers in all mandal Headquarters in AP.

We hope that we can add value to the AP Govt's Idea to make the Educational Institutions world class with quality Infrastructure as needed by offering our World class Solutions both in Protection and Switch Accessories .

Office.vijayawada@legrand.co.in

As per discussion with you earlier today, we put forward the following Products for using in your above said Education Institution in their renovation

Wiring Devices

- 1a. **Myrius**- Sturdy Range With Metal Plate and 90 Functions
- 1b. **Lyncus**- Modern Range With PVC Plate and 80 Functions
- 1c. **Myline**- Robust and a Standard Range with 70 Functions

Protection – Distribution Boards

- 1a. **Ekinox3**- Third Generation Metal Distribution Boards
- 1b. **Duo Box**- Modern Distribution Board with Metal Box and PVC Cover

Protection- RCCB with MCBs and Isolators

- 1a. **DX3** Range of Universal MCBs and RCCBs in High Sensitivity
- 1b. **Rx3** Range of Lighting B Character MCBs and RCCBs in High Sensitivity

Digital InfraStructures

1. **LCS3**- Complete End To End Fibre Optic and Copper Networking Solutions and Fibre Component for Big Housing- FTTH (Fibre to Home)

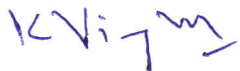

The detailed Product Specifications are attached in our subsequent sheets attached herewith for your perusal and incorporation .

We would also be delighted to assist in designing your installation with respect to the above range of products for all your requirements if required.

We hope to give you our best services at all times, Thanking you

Yours sincerely

Legrand Mylinc Technical Specifications

- The Inner Frame is made of Rigid PVC for High rigidity & Strength and outer plate is made of Poly carbonate.
- The accessories in plate and inter connected to plate and between them by Linc Lock Mechanism
- Laser marking on Mechanism for permanent identification with cat No, Dat of Manufacture.
- Strip length marking on Sockets for best contact surface connection
- ISI marking for Switches as per IS3854-1997 Fan regulator, Sockets IS1293-1988
- Regulators 120 Watts for both 48 and 56inch Fans.
- Captive "Never to Loose" screw design for connecting terminals
- The switch mechanism passes 1Lac Electrical Operations with rated load.
- Fan regulator with step marking in Laser
- Silver Contact tips on moving and fixed contacts.
- 10 Year Replacement Guarantee for Switches and 2 Years for all other products from date of installation against Purchase from Authorised Points of Sale

Legrand-Ekinox3 DISTRIBUTION BOARDS Technical Specifications

- Distribution Board shall be as per IEC 61439-3.
- Has IK 09 Impact Protection and IP 43 Degree of Protection from weather against IEC62262
- Distribution Board is be made of high quality CRCA (Cold rolled cold annealed) sheet TATA steel Grade D.
- All Bus Bars and Neutral Bars are insulated and can carry upto 100Amps and has short circuit Breaking capacity of 10KA
- Distribution Board shall be present in IP43 / IP54 protection range to offer protection against solids and liquid particles as per IEC 529, BS 5490
- The switch mechanism passes 1Lac Electrical Operations with rated load.
- Fan regulator with slip marking in Laser
- Silver Contact tips on moving and fixed contacts.
- 10 Year Replacement Guarantee for Switches and 2 Years for all other products from date of installation against Purchase from Authorised Points of Sale
